

## Sponsoring the Fire Spectacular

Fire Spectacular solicits partnerships to raise additional money to help support the costs of our entertainment and other programs. This will allow us to continue to build a better and bigger show for next year. Your participation in this event will widen the exposure of your business not only to Sacramento, but also to customers from Northern California and the Western United States. In the months preceding the show, parties and events are scheduled in the venues in Sacramento and the surround communities. These events feature various entertainment and performances.

Our goal is to become Sacramento's most popular festival and to build community surrounding art. We would like to continue our growth well into the future.

We offer three basic levels of sponsorship but of course are always willing to create custom option packages to meet your needs:
